

EDUCATION:

Sri Eshwar College of Engineering	B.E CSE	CGPA: 6.8%	2023 - 2027
Kshatriya Vidhyasala English Medium school	HSC	Percentage: 65.2	2021 - 2023
Kshatriya Vidhyasala English Medium school	SSLC	Percentage: 71.5%	2020 - 2021

PROJECTS:

OCEANIC :

[Click here](#) 2024

Implemented a dynamic web application for oceanic wave monitoring and alerts as part of the Smart India Hackathon. Used Next.js for a responsive frontend and MongoDB for efficient data storage and management. Integrated INCOIS and Open-meteo APIs to provide real-time oceanographic and weather data. Enhanced decision-making with Power BI analytics and a user-friendly interface for tracking environmental changes.

ANIMAI:

[Click here](#) 2025

Built a web-based AI application to identify animal species from images and live camera input. Used a CNN model trained on a Kaggle dataset along with Live Vision for accurate image analysis. Developed a Virtual Environment with backend to handle model processing and stored results in MongoDB. Designed a responsive frontend using Next.js and Tailwind CSS for a smooth user experience.

VERAXON :

[Click here](#) 2026

Developed a dynamic online exam proctoring using Next.js with Firebase for real-time data handling. Developed backend services with Node.js and FastAPI, integrating Google Vision for monitoring and detection. Implemented secure authentication using cryptographic SHA hashing techniques. Designed a scalable and efficient system ensuring exam integrity and seamless user experience.

INTERNSHIP:

Mern Stack - Better Tomorrow 2025

2025

Developed a dynamic web application using the MERN stack with secure APIs and user authentication. Collaborated with a team to gain hands-on experience in modern web technologies while improving performance and scalability. Regularly reviewed code and incorporated feedback to enhance overall quality and maintain efficient development practices.

Full Stack(Advanced)- Algo Tutor 2025

2025

Developed a dynamic web application using the MERN stack with secure APIs and user authentication. Collaborated with a team to gain hands-on experience in modern web technologies while improving performance and scalability. Regularly reviewed code and incorporated feedback to enhance overall quality and maintain efficient development practices.

TECHNICAL SKILLS:

Languages:C, C++, Python, Java

Technologies/Frameworks: HTML5, CSS3,React,FireBase,NodeJS

Tools: VScode, Git, Github, Canva,Figma

Cloud/Databases: Mysql, MondoDb , FireBase

Core Concepts: Data Structures & Algorithms, Object Oriented Programming, Network

ACHIEVEMENTS:

Codechef -Solved 50+ problems | Bronze medal [Click here](#)

Hackerrank- Silver level 2 star badge in c, c++ & python. [Click here](#)

Leetcode - 200+ problems completed / 1355 contest Rating [Click here](#)

CERTIFICATIONS:

Machine learning course in Great learning Academy.

2023

C and C++ Course in Great Learning Academy.

2024

Project Management Course in Linkedin Learning -By Microsoft Data structures using C in Udemy

2024

Data Structures Using C Programming - Course by Abdul Bari in Udemy

2024

Java Programming Course - Course by Abdul Bari in Udemy

2024
